

Dear E&T Committee clerk Energy & Tech Comm Energy & Tech Comm,

Dear Senator Needleman, Representative Arconti, and members of the Energy and Technology Committee,

Please advance a Green New Deal for Connecticut by supporting Proposed Bill 5002.

Connecticut has an opportunity to shape a healthier, more equitable, and more vibrant future for its people. This goal is very important to me.

I behoove you to move it forward by fully drafting and supporting Green New Deal legislation that will achieve this vision by:

- Regaining the confidence of small businesses and saving money for working families by restoring the Energy Efficiency and Clean Energy funds and protecting ratepayer funds from future budget raids.
- Rapidly increasing use of solar and offshore wind and ensuring clean energy's benefits are accessible for low and middle income families.
- Upgrading coastal infrastructure to prepare for storms and sea level rise, including use of marshes, dunes, bioswales, and rain gardens to prevent flooding and buffer waves.
- Making it easier for residents and businesses to adopt zero-emission vehicles, and investing in Connecticut's bus and rail systems, especially rail!
- Generating high-quality employment for tens of thousands of Connecticut residents through a solar jobs training program, infrastructure investments, and community workforce agreements to hire from disadvantaged communities.

Thank you.

Sincerely,
Ms. Anna Pickett
